NOTICE ABOUT FORWARD-LOOKING STATEMENTS

Throughout this presentation to shareholders at the 2011 Shareholders Meeting, we make certain statements that are not historical in nature or based solely on historical information. These forward-looking statements are subject to certain risks and uncertainties. These forward-looking statements include information about our possible or assumed future results of operations or performance, plans and objectives for future operations, the availability of capital, our liquidity and other financial items. The words “believe”, “expect”, “anticipate”, “intend”, “plan”, “estimate”, “may”, “will”, “should”, “would”, “could”, “seek”, “project”, “predict”, or similar expressions, are intended to identify forward-looking statements. These forward-looking statements are estimates reflecting our judgment based on current information and are subject to certain risks and uncertainties that could cause actual results to differ materially from anticipated results. Such risks and uncertainties include, among others, the following:

- *our relatively brief operating history;*
- *continued difficult or worsening economic conditions, especially those affecting the financial services and real estate industries in the markets we serve;*
- *the cost and availability of deposits to fund our existing and future lending commitments;*
- *changes in the interest rate environment or the yield curve that may reduce interest margins;*
- *liquidity risk affecting the Bank’s ability to meet obligations when they come due;*
- *credit risk associated with a client’s failure to comply with the terms of any contract with the Bank or otherwise fail to perform as agreed;*
- *risks to earnings or capital resulting from any failure to comply with laws, rules and regulations;*
- *strategic risk resulting from adverse business decisions or improper implementation of business decisions;*
- *the dependence of our business on technology;*
- *the Bank’s lack of loan loss experience may result in our underestimating our allowance for loan losses; and*
- *legislative or regulatory changes.*

We have based our forward-looking statements on our current expectations about future events. Although we believe that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee you that these expectations will be achieved. We undertake no obligation to update any of the forward-looking statements.
